SUMMARY

As a motivated and ambitious fresher, I am eager to embark on a career in software development. My educational background, coupled with my passion for technology, has equipped me with a strong foundation in programming and problem-solving skills. I am enthusiastic about contributing to dynamic software development projects and eager to learn and grow in a collaborative and innovative environment.

PROJECTS MADE

LIBRARY MANAGEMENT SYSTEM

- Developed a fully functional Library Management System using javascript, HTML, and CSS. This system allowed for efficient cataloging of books, user management, and borrowing/returning
- books. Technologies Used: javascript, HTML, CSS

SIMPLE DIETITIAN CHAT BOT

- Designed and implemented an Simple Dietitian Chat Bot using Python, leveraging the NLTK library spaCy and the Kivy framework. This chat bot provides personalized dietary recommendations based on user input and dietary preferences.
- Technologies Used: Python, spaCy, Kivy framework
